

Marking

Characterization acc. ADR UN 1956, gas mixture, compressed, n.o.s., 2.2
Class 2, 1A

Essential properties

Colourless, odorless, asphyxiant gas mixture, compressed, lighter than air

Cylinder Marking

shoulder:
light green

Symbols of Risks

gas, compressed

For additional safety information see Material-/safety data sheet No. *-C2H4-N2-01

Valves / Manifolds

Valve connection acc. to national standards

Recommended Manifolds Spectrolab FM 51 / FM 52exact

**Specifications / Forms of delivery**

Specifications / Forms of delivery			
		Banana gas	
Composition			
C ₂ H ₄	=	4,0	Vol. %
N ₂	=	96,0	Vol. %
Cylinders / Contents			
F 50 200 bar		9,7	m ³
Bdl 12 * F 50 200 bar		116,6	m ³

Remarks

Artificial atmosphere for banana ripening, sometimes also ripening of other fruit.
